ALLERGIES

We use dairy, soya, nuts, eggs and gluten in our kitchen. We are able to make cakes without these ingredients, but we must stress that, although every care will be taken, we cannot guarantee there will not be traces in any product.

We are not able to cater for coeliacs or gluten allergies as gluten is always present due to the small kitchen we bake in.

If you have a dietary requirement, please contact us so we can discuss your needs before placing your order to avoid disappointment.
